

TAKE ON THE DATA MOONSHOT WITH

# PANDATA GROUP FUEL

THE INTELLIGENT WAY TO IMPLEMENT SNOWFLAKE DATA PLATFORM

Pandata Group FUEL gets you up and running on the Snowflake Data Platform in 60 or 90 days, while you stay focused on your business. We get you live with core functionality quickly, reducing risk with our technology-driven method. With FUEL you get access to our certified experts, established best practices, a detailed timeline with clear expectations, and a path forward to scale Snowflake as your data transformation grows.

## How is Pandata Group FUEL different?

### Achieve your goals faster

Utilize a smarter deployment model based on best practices to get you live – fast.

### Focus on your business

FUEL improves your end-to-end experience with a simplified, client-focused approach.

### Ensure project quality

Reduces risk through our technology-driven project management methodology.

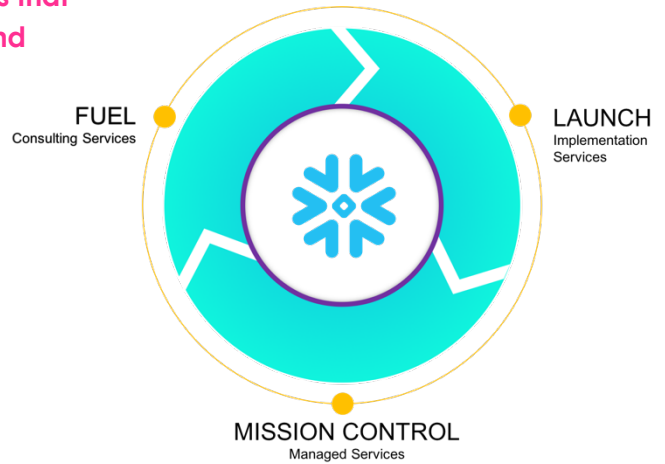

### Grow over time

Provides a powerful path forward for your Snowflake environment after go-live with Pandata Group LAUNCH.

**FUEL is a guided approach best suited for companies that are new to Snowflake, who need help aligning around their needs, and getting started.**

### Common uses cases include:

- Accelerating Analytics
- Data Lake Migration
- Data Warehouse Modernization
- Data Engineering
- Data Science

WE'VE GOT THIS. BE BUSINESS INTELLIGENT.

## Fit for your business needs

FUEL offers a fixed implementation approach that is unique to your business needs with a 60 or 90 day program.

### 60 Days

For companies with little to no Snowflake knowledge looking for guidance and help with their business needs.

- Core Snowflake setup
- Ingestion from one source
- 1Fact Table and up to 4 dimensions
- Data Migration & Plan
- Convert to Production
- Training

### 90 Days

+ 60 day program

- Business requirements gathering
- Current state review
- Dimensional Model
